

The 41st Annual Meeting of Korean Cancer Association with International Cancer Conference

Date : June 18(Thu) ~ 19(Fri), 2015
Venue : Lotte Hotel Seoul, Seoul, Korea

Scientific Program

June 19 (Fri)

Meet the Professor

1: Acquired resistance to EGFR or ALK TKI

Tetsuya Mitsudomi (Kinki University, Japan)

07:30-08:20, Crystal Ballroom A

2: Clinical application of next generation sequencing

Woong-Yang Park (Samsung Genome Institute, Samsung Medical Center)

07:30-08:20, Crystal Ballroom B

Plenary Session (in English)

08:30-09:30, Crystal Ballroom

Chairs: Joo Hang Kim (Yonsei University College of Medicine)

Eun Sook Lee (National Cancer Center)

1) Does the patient subset with high tumor Carbonic anhydrase 9 (CA9) expression benefit from prophylactic irradiation of para-aortic lymph nodes?: a randomized, open-label, multicenter, phase II trial KROG 07-01 for locally advanced uterine cervical cancer

Joo-Young Kim (National Cancer Center)

2) Comparison of concurrent chemoradiation therapy with three weekly versus weekly cisplatin in patients with locally advanced nasopharyngeal cancer: a multicenter randomized phase II non-inferiority trial (KCSG-HN10-02)

Ji Yun Lee (Samsung Medical Center)

3) A Dual Role of miR-155 in mouse Breast Cancer Model.

Suhwan Chang (Asan Medical Center)

Special Lecture (in English)

09:30-10:00, Crystal Ballroom

Chairs: Hoon-Kyo Kim (The Catholic University of Korea College of Medicine)

Jun Suk Kim (Korea University College of Medicine)

Living the American dream : an exciting journey of opportunities and challenges

Waun Ki Hong, M.D., F.A.C.P., D.M.Sc.(Hon.) (The University of Texas M.D. Anderson Cancer Center, USA)

Plenary Lecture 3 (in English)

10:20-10:50, Crystal Ballroom

Chair: Shigetoyo SAJI (Gifu University, Japan)

The advent of multidisciplinary health care beyond the multidisciplinary treatment against gastric cancer

Sung Hoon Noh, M.D., Ph.D., FACS. (Yonsei University College of Medicine)

Plenary Lecture 4 (in English)

10:50-11:40, Crystal Ballroom

Chair: Chang Ok Suh (Yonsei University College of Medicine)

Genomically guided radiation therapy

Javier F. Torres-Roca, MD (Chemical Biology and Molecular Medicine Program, Moffitt Cancer Center, USA)

The 41st Annual Meeting of Korean Cancer Association with International Cancer Conference

Date : June 18(Thu) ~ 19(Fri), 2015
Venue : Lotte Hotel Seoul, Seoul, Korea

Scientific Program

June 19 (Fri)

Symposium 10

13:40-15:20, Crystal Ballroom A

Joint Symposium (Korean Cancer Association & The Korean Society of Coloproctology)

Chairs: Seong Taek Oh (The Catholic University of Korea College of Medicine)
Tae Won Kim (Asan Medical Center)

I. Surgical advances in colorectal cancer

- 1) Concept of CME
Seung Hyuk Baik (Yonsei University College of Medicine)
- 2) CCR after preop CCRT, what are the current options?
Jung Wook Huh (Samsung Medical Center)
- 3) Role of palliative surgery in incurable stage IV colorectal cancer
Seung-Kook Sohn (Yonsei University College of Medicine)

II. Medico-RT issues

- 1 Recent update in chemotherapy for colorectal cancer
Yong Sang Hong (Asan Medical Center)
- 2 Recent update in radiotherapy for stage II-III rectal cancer
Hong Seok Jang (The Catholic University of Korea College of Medicine)

Symposium 11 (in English)

13:40-15:20, Crystal Ballroom B

Joint Symposium (Korean Cancer Association & The Korean Society of Pediatric Neuro-Oncology)

Optimal management of pediatric CNS germ cell tumor

Chairs: Il Han Kim (Seoul National University College of Medicine)
Joo Young Kim (National Cancer Center)

- 1) Role of surgery in CNS GCT
Tai-Tong Wong (Taipei Medical University Hospital, Taiwan)
- 2) Radiation therapy for CNS germinoma
Yuta Shibamoto (Nagoya City University, Japan)
- 3) Update of chemotherapy
Chuhl Joo Lyu (Yonsei University College of Medicine)

The 41st Annual Meeting of Korean Cancer Association with International Cancer Conference

Date : June 18(Thu) ~ 19(Fri), 2015
Venue : Lotte Hotel Seoul, Seoul, Korea

Scientific Program

June 19 (Fri)

Symposium 12 (in English)

13:40-15:20, Crystal Ballroom C

Evolution and revolution of lung cancer treatment

Chairs: Sook Whan Sung (The Catholic University of Korea College of Medicine)

Myung Ju Ahn (Samsung Medical Center)

1) Spatial and temporal Heterogeneities of lung cancer

Tetsuya Mitsudomi (Kinki University, Japan)

2) Evolution and future of immunotherapy in lung cancer

Ji-Youn Han (National Cancer Center)

3) High precision radiotherapy of lung cancer

Hong-Ryull Pyo (Samsung Medical Center)

4) Changing role of surgery in oligometastatic lung cancer

Young Tae Kim (Seoul National University College of Medicine)

Symposium 13

13:40-15:20, Sapphire Ballroom A

Joint Symposium (Korean Cancer Association & Korean Society of Gynecologic Oncology)

I. An updated review of current clinical trials in gynecologic cancer

Chairs: Duk Soo Bae (Samsung Medical Center)

Young Tae Kim (Yonsei University College of Medicine)

1) Updated review of current clinical trials in cervical cancer

Sang Young Ryu (Korea Institute of Radiological & Medical Sciences)

2) An updated review of current clinical trials in ovarian cancer

Jae-Weon Kim (Seoul National University College of Medicine)

3) An updated review of current clinical trials in endometrial cancer

Seok Ju Seong (CHA University College of Medicine)

II. New researches in gynecologic cancer

Chairs: Young-Tak Kim (Asan Medical Center)

Byoung-Gie Kim (Samsung Medical Center)

1) Clearance of persistent HPV infection and cervical lesion by therapeutic DNA vaccine in CIN3 patients

Tae Jin Kim (Dankook University College of Medicine)

2) Prevalence study of germline and/or somatic BRCA1/2 mutation in Korean patients with high-grade serous and/or endometrioid epithelial ovarian, fallopian tube, or primary peritoneal cancer

Jeong-Won Lee (Samsung Medical Center)

3) Detecting circulating tumor DNA in ovarian cancer

Shin-Wha Lee (Asan Medical Center)

The 41st Annual Meeting of Korean Cancer Association with International Cancer Conference

Date : June 18(Thu) ~ 19(Fri), 2015
Venue : Lotte Hotel Seoul, Seoul, Korea

Scientific Program

June 19 (Fri)

Symposium 14 (in English)

13:40-15:20, Sapphire Ballroom B

Cancer panel

Chairs: Tae You Kim (Seoul National University College of Medicine)

Kyoung Mee Kim (Samsung Medical Center)

- 1) Find a needle in a haystack: A nation-wide genome screening program for lung and colorectal cancer patients, SCRUM-Japan
Katsuya Tsuchihara (National Cancer Center, Japan)
- 2) Clinical application of actionable cancer genome analysis for precision oncology
Woong-Yang Park (Samsung Genome Institute, Samsung Medical Center)
- 3) NGS-based Korean pan-cancer companion diagnostics for targeted therapeutics
Ju Han Kim (Seoul National University College of Medicine)
- 4) Application of cancer panel for studying the progression of cancers
Yeun-Jun Chung (The Catholic University of Korea College of Medicine)

Symposium 15 (in English)

15:40-17:20, Crystal Ballroom A

Druggable oncogenic pathway

Chairs: Hyun Cheol Chung (Yonsei University College of Medicine)

Do-Youn Oh (Seoul National University College of Medicine)

- 1) Development of ramucirumab in gastric and gastroesophageal cancers
David Ferry (Eli Lilly, USA)
- 2) Immune checkpoints for cancer treatment
Florin Sirzen (Roche, Switzerland)
- 3) MEDI4736 (anti-PDL1): an overview of global development as monotherapy and in combination
Aiman Shalabi (Astrazeneca, USA)
- 4) AZD9291: an overview of global development of a T790M directed EGFR-TKI
Younghwa Kim (Astrazeneca, Korea)

Symposium 16 (in English)

15:40-17:20, Crystal Ballroom C

Cancer stem cell

Chairs: Sun Young Rha (Yonsei University College of Medicine)

Dong-Wan Kim (Seoul National University College of Medicine)

- 1) LMO2 regulates tumorigenic and angiogenic traits in cancer stem cells
Hyunggee Kim (Korea University School of Life Sciences & Biotechnology)
- 2) Cross-talk between the Wnt/ β -catenin and Ras pathways in the tumor growth and metastasis involving cancer stem cell activation
Kang-Yell Choi (Yonsei University College of Life Science and Biotechnology)
- 3) EGFRvIII promotes self-renewal of infiltrating glioma stem cells via PEDF secretion
Jong Bae Park (National Cancer Center)
- 4) Personalized targeted therapy based on AVATAR Mouse® & AVATASCAN®
Do-Hyun Nam (Samsung Medical Center)

The 41st Annual Meeting of Korean Cancer Association with International Cancer Conference

Date : June 18(Thu) ~ 19(Fri), 2015
Venue : Lotte Hotel Seoul, Seoul, Korea

Scientific Program

June 19 (Fri)

Satellite Symposium 5 (in English)

12:00-12:50, Crystal Ballroom

Chair: Jin Hyoung Kang (The Catholic University of Korea College of Medicine)

Immunology translational research and Immune check point inhibitors in solid tumors (by ONO Pharma and BMS)

Jonathan Simon Cebon (Medicine at the University of Melbourne & Royal Australasian College of Physicians, Australia)

Satellite Symposium 6 (in English)

12:00-12:50, Sapphire Ballroom

Chair: Jae Yong Cho (Yonsei University College of Medicine)

Emerging Standard-Of-Care in Second-Line gastric cancer (by Lilly)

Se-Hoon Park (Samsung Medical Center)

The 41st Annual Meeting of Korean Cancer Association with International Cancer Conference

Date : June 18(Thu) ~ 19(Fri), 2015
Venue : Lotte Hotel Seoul, Seoul, Korea

Scientific Program

June 19 (Fri)

International Session (Oral, in English)

Session 5 (Gastric cancer)

13:40~15:10, Sapphire Ballroom C

Chairs: Hideo Baba (Surgery Graduate School of Medical Sciences Kumamoto University, Japan)

Jae Moon Bae (Samsung Medical Center, Korea)

IT-19) Lymph node metastasis in mucosal gastric cancer: Reappraisal of expanding indication for endoscopic submucosal dissection

Seung-Young Oh (Seoul National University College of Medicine, Korea)

IT-20) Intraoperative Margin Analysis of Gastric Cancer

Tae Han Kim (Seoul National University College of Medicine, Korea)

IT-21) Decreased Morbidity of Laparoscopic Distal Gastrectomy Compared to Open Distal Gastrectomy for Stage I Gastric Cancer: Short-term Outcomes from a Multicenter Randomized Controlled Trial (KLASS-01)

Hyuk-Joon Lee (Seoul National University College of Medicine, Korea)

IT-22) Downregulation of Tipα activity by BTG2/TIS21 gene via inhibiting nucleolin expression in Gastric cancer cells

Preethi Devanand (Ajou University School of Medicine, Korea)

IT-23) Presentation and outcomes of gastric cancer at a university teaching hospital in Nepal

Prabhat jha (Tribhuvan University Teaching Hospital, Nepal)

IT-24) Gastric Cancer in Young Adult: experience from Nepal

Bishnu Prasad Kandel (Tribhuvan University Teaching Hospital, Nepal)

Session 6 (Colorectal cancer, GU & GY cancer)

15:40-16:55, Sapphire Ballroom B

Chairs: Chi Heum Cho (Keimyung University School of Medicine, Korea)

Joong-Bae Ahn (Yonsei University College of Medicine, Korea)

IT-25) A novel hemagglutinin isolated from the Northeast China black beans agglutinated the Golgi apparatus and induced cell apoptosis in colorectal cancer cells

Xiuli DAN (The Chinese University of Hong Kong, Hong Kong, China)

IT-26) Factors associated with Adequate Lymph Node Harvest in Colorectal Cancer: The Clinical Impact of the National Quality Assessment Program and Big Data Management

Daeyoun Won (College of Medicine, The Catholic University of Korea, Korea)

IT-27) Role of the additional androgen deprivation therapy during the whole natural course of recurrent prostate cancer patients with salvage radiotherapy: insights from the real-life experience of the single institute.

Myong Kim (University of Ulsan College of Medicine, Asan Medical Center, Korea)

IT-28) Malignant ovarian germ cell tumors (MOGCT); survival outcomes from a single institution.

Kamran Saeed (Shaukat Khanum Memorial Cancer Hospital and Research Center, Pakistan)

IT-29) Biological significance of yes-associated protein (YAP) in endometrial cancer

Ju-Won Roh (Dongguk University Ilsan Hospital, Korea)

The 41st Annual Meeting of Korean Cancer Association with International Cancer Conference

Date : June 18(Thu) ~ 19(Fri), 2015
Venue : Lotte Hotel Seoul, Seoul, Korea

Scientific Program

June 19 (Fri)

Oral Presentation

Session 9 (Gastric cancer I)

15:40~16:20, Crystal Ballroom B

Chairs: Wansik Yu (Kyungpook National University College of Medicine)

Ik Joo Chung (Chonnam National University Hwasun Hospital)

OP-35) High-mobility-group A2 overexpression provokes a poor prognosis of gastric cancer through the epithelial-mesenchymal transition

Han Hong Lee (College of Medicine, The Catholic University of Korea)

OP-36) Relation between tumor diameter to depth of submucosal invasion as a surrogate marker for tumor aggressiveness in early gastric cancer

Amir Ben Yehuda (National Cancer Center)

OP-37) Complications of the robotic gastrectomy compared to the laparoscopic gastrectomy: are they different?

Yeon-Ju Huh (Seoul National University College of Medicine)

OP-38) Prognostic value of tumor infiltrating lymphocytes (TILs) in Epstein-Barr virus (EBV)-associated gastric cancer (EBVaGC)

Byung Woog Kang (Kyungpook National University College of Medicine)

Session 10 (Gastric cancer II)

16:20~17:00, Crystal Ballroom B

Chairs: Kyung Hee Lee (Yeongnam University College of Medicine)

Keun Won Ryu (National Cancer Center)

OP-39) First-line capecitabine (X) monotherapy versus capecitabine plus oxaliplatin (XELOX) in elderly patients with advanced gastric cancer (AGC): results from the first interim analysis.

In Gyu Hwang (Chung-Ang University College of Medicine)

OP-40) Phase II study of everolimus as a salvage treatment after failure of fluoropyrimidine and platinum in patients with metastatic gastric cancer positive for pS6Ser240/4 expression

Jwa Hoon Kim (Asan Medical Center, University of Ulsan College of Medicine)

OP-41) Phase I/II study of a combination of capecitabine, cisplatin, and intraperitoneal docetaxel (XP ID) in patients with advanced gastric cancer with peritoneal metastasis.

Hyungwoo Cho (Asan Medical Center, University of Ulsan College of Medicine)

OP-42) Anti-tumor efficacy of fulvestrant in estrogen receptor positive gastric cancer

Jun Ho Yi (Hanyang University Hospital)

The 41st Annual Meeting of Korean Cancer Association with International Cancer Conference

Date : June 18(Thu) ~ 19(Fri), 2015
Venue : Lotte Hotel Seoul, Seoul, Korea

Scientific Program

June 19 (Fri)

Oral Presentation

Session 11 (Gynecologic cancer & Lung cancer)

15:40~16:30, Sapphire Ballroom A

Chairs: Yong Man Kim (Asan Medical Center)

Sang Won Shin (Korea University College of Medicine)

OP-43) Type-specific viral load of human papillomavirus type 16, 18 and 58 as a diagnostic marker for high-grade CIN or cervical carcinoma

Ju-Won Roh (Dongguk University Ilsan Hospital)

OP-44) Propensity-score analysis of neoadjuvant chemotherapy vs. primary surgery in advanced ovarian cancer: Does surgical quality matter?

Hyo Sook Bae (Gangnam CHA Medical Center)

OP-45) The pretreatment neutrophil to lymphocyte ratio as prognostic factor in women aged 70 years or older receiving concurrent chemoradiotherapy for cervical cancer

Jaesung Heo (Ajou University School of Medicine)

OP-46) Clinical activity of crizotinib in patients with brain metastasis and advanced ALK-rearranged non-small cell lung cancer

Hye-Sook Kim (National Cancer Center)

OP-47) Utility of mass-spectrometry-based selected reaction monitoring (SRM) assay in non-small-cell lung cancer (NSCLC) patients exhibiting discrepant ALK status between FISH and immunohistochemistry

Ho Jung An (College of Medicine, The Catholic University of Korea)

Session 12 (Colorectal cancer)

16:30~17:20, Sapphire Ballroom A

Chairs: Hyo Jin Kim (Dong-A University College of Medicine)

Won Sup Lee (Gyeongsang National University School of Medicine)

OP-48) Impact of Postoperative Chemoradiotherapy versus Chemotherapy alone on Recurrence and Survival in Patients with Stage II and III Upper Rectal Cancer: A Propensity Score-Matched Analysis

Changhoon Song (Seoul National University Bundang Hospital)

OP-49) Preoperative Serum Carcinoembryonic Antigen (CEA) Level as a Predictive Factor of Recurrence After Curative Resection followed by Adjuvant Chemotherapy in Stage III Colon Cancer

Chang-gon Kim (Yonsei University College of Medicine)

OP-50) Adequate lymph node yield to improve survival according to the tumor location in colon cancer

Hye Jin Kim (Kyungpook National University School of Medicine)

OP-51) Development of Mussel-Inspired Anti-Cancer Patches for Far Advanced Colorectal Cancer Treatment

Jun Seok Park (Kyungpook National University School of Medicine)

OP-52) Benefit of adjuvant chemotherapy after curative resection of lung metastasis from colorectal cancer

Hyung Soon Park (Yonsei University College of Medicine)

The 41st Annual Meeting of Korean Cancer Association with International Cancer Conference

Date : June 18(Thu) ~ 19(Fri), 2015
Venue : Lotte Hotel Seoul, Seoul, Korea

Scientific Program

June 19 (Fri)

Oral Presentation

Session 13 (Biomarker and therapeutics I)

15:40~16:30, Sapphire Ballroom C

Chairs: Gyung-yub Gong (Asan Medical Center)

Jee Hyun Kim (Seoul National University Bundang Hospital)

OP-53) The BIM Deletion Polymorphism and its Clinical Implication in Patients with EGFR-Mutant Non-Small Cell Lung Cancer Treated with EGFR Tyrosine Kinase Inhibitors

Ji Yun Lee (Samsung Medical Center)

OP-54) The prevalence and prognostic relevance of PD-L1 expression in patients with HPV-negative and HPV-positive Oropharyngeal Cancer

Hae Su Kim (Sungkyunkwan University School of Medicine)

OP-55) Runx3 inhibited motility and invasiveness of colon cancer cells through reduction of Cancer stem cells.

BoRam Kim (Korea University College of Medicine)

OP-56) Prevalence of pathogenic variants using multiple-gene sequencing panel for hereditary cancer risk in a healthy Korean population

Ja-Hyun Jang (Green Cross Genome)

OP-57) Aberrant epigenetic modifications of LPHN2 function as a potential cisplatin-specific biomarker for human gastrointestinal cancer

Mi-Seong Jeon (Seoul National University College of Medicine)

Session 14 (Biomarker and therapeutics II)

16:30~17:20, Sapphire Ballroom C

Chairs: Seock Ah Im (Seoul National University College of Medicine)

Kil Yeon Lee (Kyung Hee University School of Medicine)

OP-58) ERH overexpression is associated with decrease cell migration, invasion, and good prognosis in gastric cancer

Ji-Ho Park (Gyeongsang National University College of Medicine)

OP-59) Clinical Implication of Serine Metabolism Associated Enzymes Expression in Colorectal Cancer

Shinkyoo Yoon (Kyungpook National University School of Medicine)

OP-60) Predictive value of ERCC1 & KRAS in colorectal cancer patients with FOLFOX chemotherapy

Sung Bong Choi (College of Medicine, The Catholic of University of Korea)

OP-61) Inhibition of invasion and induction of apoptotic cell death of gastric cancer cells by suppression of PDGFR.

Jung Lim Kim (Korea University College of Medicine)

OP-62) Development of standard personalized medicine platform integrating clinical genomics with patient derived xenograft models for gastric cancer.

Yun-Suhk Suh (Seoul National University College of Medicine)

The 41st Annual Meeting of Korean Cancer Association with International Cancer Conference

Date : June 18(Thu) ~ 19(Fri), 2015
Venue : Lotte Hotel Seoul, Seoul, Korea

Scientific Program

June 19 (Fri)

Poster Presentation

09:00~17:00, Emerald Room

- P-087) Metformin overcome TRAIL resistance in colon cancer cells via inhibiting of Mcl-1
Seong Hye Park (Korea University College of Medicine)
- P-088) Administration of granulocyte colony-stimulating factor with radiotherapy promotes tumor growth by stimulating vascularization in tumor-bearing mice
Min Ji Bae (Dongnam institute of Radiological & Medical Sciences)
- P-089) Establishing a mouse model for radiation-induced esophagitis
Kyung Su Kim (Seoul National University College of Medicine)
- P-090) Low and high linear energy transfer radiation sensitization of HCC cells by Gold nanoparticles
Eun Ho Kim (Korea Institute of Radiological and Medical Sciences)
- P-091) Therapeutic Efficacy of Linalool Incorporated Nanoparticles as a Novel Anticancer Agent for Epithelial Ovarian Carcinoma
Jeong-Won Lee (Samsung Medical Center, Sungkyunkwan University School of Medicine)
- P-092) Comparison of Radiotherapy Response Between Conventional 2D Technique with The Booster of 2D, 3DCRT, or Brachytherapy in Early-Stage Nasopharyngeal Cancer
Endang Nuryadi (Dr. Cipto Mangunkusumo National General Hospital, Indonesia)
- P-093) Efficacy of single fraction palliative radiotherapy in bone metastases
Tahir Mehmood (Shaukat Khanum Memorial Cancer Hospital and Research Centre, Pakistan)
- P-094) Impact of Bladder Distension on Organs at Risk in 3D Intracavitary Brachytherapy for Gynecological Cancer
Tahir Mehmood (Shaukat Khanum Memorial Cancer Hospital and Research Centre, Pakistan)
- P-095) The potential role of digoxin combined with ionizing radiation in human colorectal cancer cells
Jihye Yoon (Korea Institute of Radiological and Medical Sciences)
- P-096) Constitutive Asymmetric Dimerization drives Oncogenic Activation of Epidermal Growth Factor Receptor Carboxyl-Terminal Deletion Mutants
Kyung-Joo Angela Park (Samsung Genome Institute, Sungkyunkwan University)
- P-097) Detection of circulating tumor cells by single cell picking and target sequencing of epithelial cell adhesion molecule attached cells
Han-Byoel Lee (Seoul National University Hospital)
- P-098) Retaining ALK Rearrangement in Cultured Circulating Tumor Cells Derived from Lung Cancer Patients
Eunjoo Hwang (Cytogen Inc.)
- P-099) A retrospective analysis for patients with HER2 positive gastric cancer who were treated with trastuzumab-based chemotherapy: Do all patients benefit from trastuzumab?
Jun Ho Yi (Hanyang University College of Medicine)
- P-100) Analysis of combined lobaplatin with paclitaxel as a first-line chemotherapy for advanced esophageal squamous cell carcinoma
Ming-Qiu CHEN (FuJian Medical University Union Hospital, China)
- P-101) Clinicians' preference of adjuvant S-1 versus capecitabine plus oxaliplatin after curative gastrectomy
Ha Yeon Lee (Kyung Hee University College of Medicine)
- P-102) Conditional Survival Analysis in Korean Patients with Gastric Cancer Undergoing Curative Gastrectomy
Kyo Young Song (College of Medicine, The Catholic University of Korea)

The 41st Annual Meeting of Korean Cancer Association with International Cancer Conference

Date : June 18(Thu) ~ 19(Fri), 2015
Venue : Lotte Hotel Seoul, Seoul, Korea

Scientific Program

June 19 (Fri)

Poster Presentation

09:00~17:00, Emerald Room

- P-103) Epstein-Barr Virus-encoded BARP1 Ddownregulates SMAD4 and Increases MiR-146a in Stomach Cancer Cells
Mee Soo Chang (Seoul National Univerisy Boramae Hospital, Seoul National University College of Medicine)
- P-104) Interim analysis of fluorodeoxyglucose uptake in patients with metastatic or recurrent gastric cancer treated with fluoropyrimidine based chemotherapy
Suk-young Lee (Korea University College of Medicine)
- P-105) Is retrieval of at least 15 lymph nodes sufficient recommendation in early gastric cancer?
Hyung Mo Lee (Ewha Womans University College of Medicine)
- P-106) The role of conversion surgery in metastatic gastric cancer
An Thi Thoai Nguyen (Nationnal Cancer Center, Korea)
- P-107) Locally dysregulated serotonin system enhance Warburg effect and tumor growth through mTOR dependent pathways in pancreatic cancer
Shuheng Jiang (Shanghai Jiao Tong University School of Medicine, China)
- P-108) A single institution's experience in rectal cancer
Bibek Acharya (National Academy of Medical Sciences, Bir hospital, Nepal)
- P-109) Tumor response assessment by measuring the single largest lesion per organ in patients with advanced gastric cancer or colorectal cancer
Jung Han Kim (Hallym University College of Medicine)
- P-110) Diabetes increases the risk of intrahepatic recurrence in patients with hepatocellular carcinoma after surgical resection.
Yunseon Choi (Inje University School of Medicine)
- P-111) HBV variation is associated with Hepatocellular Dysplastic Nodule (HDN)
Zhang Wei (Fifth Hospital of Shijiazhuang City, China)
- P-112) Molecular Subgroup Analysis of Clinical Outcomes in a Phase 3 Study of Gemcitabine and Oxaliplatin with or without Erlotinib in Advanced Biliary Tract Cancer
Seung Tae Kim (Samsung Medical Center, Sungkyunkwan University School of Medicine)
- P-113) Multicenter retrospective study of high-dose radiotherapy using hypofractionation for moderate-sized hepatocellular carcinoma (KROG 14-17)
Myungsoo Kim (College of Medicine, The Catholic University of Korea)
- P-114) Pattern of failure after cholecystectomy for gallbladder cancer: Implications of surgical extent and adjuvant treatment
Sunil Choudhary (Institute of Medical Sciences, Banaras Hindu University, India)
- P-115) Primary hepatic cancer
Dugarsuren Yanjiv (National cancer center of Mongolia)
- P-116) Role of CD44 expression in non-tumor tissue on intrahepatic recurrence of hepatocellular carcinoma
Lkhagva-Ochir Tovuu (National Cancer Center of Mongolia)
- P-117) BubR1 suppresses metastatic behavior in colon cancer
Min-Jung Kim (Korea Institute of Radiological & Medical Science)
- P-118) Clinicopathological characteristics associated with expression of SIRT1 and SIRT2 in elderly colon cancer patients.
Yun Hwa Jung (College of Medicine, The Catholic University of Korea)

The 41st Annual Meeting of Korean Cancer Association with International Cancer Conference

Date : June 18(Thu) ~ 19(Fri), 2015
Venue : Lotte Hotel Seoul, Seoul, Korea

Scientific Program

June 19 (Fri)

Poster Presentation

09:00~17:00, Emerald Room

P-119) ECOG performance status and LINE-1 methylation and recurrence following adjuvant FOLFOX in colorectal cancer.

XIANYU WEN (Seoul National University College of Medicine)

P-120) Metastatic mixed adenoneuroendocrine carcinoma of rectum

Sangmyoung Lee (College of Medicine, The Catholic University of Korea)

P-121) Open vs. Laparoscopy vs. Robotic surgery for Right colon cancer: Comparison of early and long-term oncologic outcomes

Jeonghyun Kang (Yonsei University College of Medicine)

P-122) The Effect of Concurrent Chemotherapy Regimen in Preoperative Chemoradiotherapy for Locally Advanced Rectal Cancer

Eunji Kim (Seoul National University College of Medicine)

P-123) The prognostic role of serum CXCR4 in patients with metastatic or recurrent colorectal cancer

Yoon Ji Choi (Korea University College of Medicine)

P-124) Ubiquitin Specific Protease 4 Positively Regulates the WNT/ β -catenin Signaling in Colorectal Cancer

Sun-Il Yun (Sungkyunkwan University School of Medicine)

P-125) Y-box binding protein1, YB1, regulates radiation sensitivity in colorectal cancer

Areumnuri Kim (Korea Institute of Radiological & Medical Science)

P-126) A case of lung adenocarcinoma with concurrent exon 20 EGFR mutation and ALK rearrangement

Hyun Chang (International St. Mary's Hospital, Catholic Kwandong University College of medicine)

P-127) CXCL14 and CXCR7 expression is increased in human squamous lung cancers compared to its adjacent normal lung tissues.

Yoon Hee Choi (Dongnam Institute of Radiological and Medical Sciences)

P-128) Epidemiology, treatment patterns and survival outcome in patients of advanced stage inoperable lung cancer : A tertiary cancer care centre analysis.

Divyesh Kumar (King George Medical College, India)

P-129) Epiphora following chemotherapy of pemetrexed in patients with advanced non-small cell lung cancer

Yun Duk Jung (College of Medicine, The Catholic University of Korea)

P-130) Expressions of tumor suppressive microRNAs 34a, 192, 194 and 215 in non-small cell lung cancers and their association with clinicopathological features

Ji hyung Hong (College of Medicine, The Catholic University of Korea)

P-131) Inhibiting EGFR endocytosis is a novel strategy to overcome EGFR-TKI resistance in EGFR wild-type NSCLC

Boyeon Kim (Korea University College of Medicine)

P-132) Prediction of occult lymph node metastasis using metabolic PET parameters in small size peripheral non-small cell lung cancer

Su Jin Lee (Ajou University School of Medicine)

P-133) Quality-of-life (QoL) results from the phase 3 REVEL randomized clinical trial of ramucirumab+docetaxel (RAM+DTX) versus placebo+docetaxel (PL+DTX) in second-line advanced/metastatic non-small cell lung cancer (NSCLC) patients with progression after platinum-based chemotherapy
Jongseok Kim (Eli Lilly Korea Ltd.)

The 41st Annual Meeting of Korean Cancer Association with International Cancer Conference

Date : June 18(Thu) ~ 19(Fri), 2015
Venue : Lotte Hotel Seoul, Seoul, Korea

Scientific Program

June 19 (Fri)

Poster Presentation

09:00~17:00, Emerald Room

- P-134) The Clinical Characteristics of RET rearranged Lung Adenocarcinoma Patients
Jeong-Oh Kim (Reaserch Institutes of Medical Science, The Catholic University)
- P-135) The Effect of Platinum Based Adjuvant Chemotherapy on Survival in the Surgically Resected Lung Adenocarcinoma According to the Expression of EGFR Mutation Specific Antibody and C-MET
In-Ho Kim (College of Medicine, The Catholic University of Korea)
- P-136) Genomic profiling of metastatic gastroenteropancreatic neuroendocrine tumor (GEP-NET) patients in precision-medicine era.
Seung Tae Kim (Samsung Medical Center, Sungkyunkwan University School of Medicine)
- P-137) Cervical cancer screening and assessment cost effectiveness
Bulgan Nyamaa (National Cancer Center of Mongolia)
- P-138) Prognostic Significance of Periprostatic Lymph Node Metastasis in Prostate Cancer
Changhoon Song (Seoul National University College of Medicine)
- P-139) Robot-Assisted Retroperitoneal Lymph Node Dissection for Post-Chemotherapy Nonseminomatous Germ cell tumor
Dong Soo Kim (Kyung Hee University School of Medicine)
- P-140) A prediction model for parametrial invasion in patients with FIGO stage IB cervical cancer: individualized approach in primary treatment
Tae-Wook Kong (Ajou University School of Medicine)
- P-141) Catastrophic intraperitoneal recurrence in patients with early cervical cancer treated with laparoscopic/robotic radical hysterectomy
Tae-Wook Kong (Ajou University School of Medicine)
- P-142) F-18 Fluorodeoxyglucose Positron Emission Tomography/Computed Tomography Imaging for Diagnosing Ovarian Small Cell Carcinoma of the Hypercalcemic Type
Soon-ah Park (Wonkwang University School of Medicine)
- P-143) Honeybee venom possesses anticancer and antiviral effects by differential inhibition of HPV E6 and E7 expression on cervical cancer cell line
Yong Kim (Yonsei Institute of Convergence Technology, Yonsei university)
- P-144) Low Dose Fractionation Vaginal Brachytherapy Versus External-Beam Radiotherapy For Patients With Surgically Treated Stage-1 Endometrial Cancer
Jiyoung Kim (Ewha Womans University Medical Center)
- P-145) Prognostic analysis of uterine cervical cancer treated with postoperative radiotherapy:Importance of positive or close parametrial resection margin
Yi-Jun Kim (Ewha Womans University School of Medicine)
- P-146) Role of Radiotherapy in Smooth Muscle Tumor of Uncertain Malignant Potential (STUMP)
BoKyong Kim (Sheikh Khalifa Specialty Hospital, United Arab Emirate)
- P-147) Salinomycin inhibits leptin-induced cell proliferation and apoptosis in paclitaxel-resistant ovarian cancer
So-Jin Shin (Keimyung University College of Medicine)

The 41st Annual Meeting of Korean Cancer Association with International Cancer Conference

Date : June 18(Thu) ~ 19(Fri), 2015
Venue : Lotte Hotel Seoul, Seoul, Korea

Scientific Program

June 19 (Fri)

Poster Presentation

09:00~17:00, Emerald Room

- P-148) Transvaginal ultrasound-guided biopsy of adnexal masses as a useful diagnostic alternative replacing cytology or laparoscopy in advanced ovarian cancer patients
Suk-Joon Chang (Ajou University School of Medicine)
- P-149) Ultrasound-guided intranodal lymphangiography with glue embolization: A novel technique to treat chylous or lymphatic ascites after retroperitoneal lymphadenectomy in gynecologic cancer
Tae-Wook Kong (Ajou University School of Medicine)
- P-150) Vulvar cancer: prognosis and response to conventional therapies
Tahir Mehmood (Shaukat Khanum Memorial Cancer Hospital and Research Centre, Pakistan)
- P-151) Anticancer Effects of CD-200 in Imatinib-Resistant Chronic Myeloid Leukemia Cells with T315I Mutation
Zhenghuan Fang (Inha University College of Medicine)
- P-152) Fast STR-PCR protocol enabling rapid and high quality chimerism analysis after allo-HSCT
Hongxing Liu (Yanda International Hospital, China)
- P-153) Oncologic outcome after local recurrence of chondrosarcoma: analysis of prognostic factors
Ilkyu Han (Seoul National University College of Medicine)
- P-154) A case of pulmonary tumor microembolism and bone marrow metastasis 3 years after excision of Extramammary Paget's disease in scrotum.
Seongcheol Cho (Seoul National University Bundang Hospital)
- P-155) Miniature X-ray tube based on Carbon Nanotube field emitter for skin Cancer Therapy
Hyun Jin Kim (Korea Advanced Institute of Science and Technology)
- P-156) Multifocal, recurrent malignant chondroid syringoma with visceral metastases: a case report and literature review
Ann Meredith Uao Garcia (University of the Philippines - Philippine General Hospital, Philippines)
- P-157) A Case Report on Langerhans Cell Histiocytosis in an Adult Filipino
Angeline Odelia Cue Concepcion (University of the Philippines - Philippine General Hospital, Philippines)
- P-158) The cancer mortality-to-incidence ratio as an indicator of outcomes of cancer management in OECD countries
Eunji Choi (Graduate School of Cancer Science and Policy)
- P-159) The economic burden of cancer in Korea in 2009
Jong Hyock Park (Chungbuk National University College of Medicine)
- P-160) Family Meeting Program at Initial Diagnosis of Incurable Lung Cancer in St. Vincent's Hospital
Sang-hoon Eum (College of Medicine, The Catholic University of Korea)
- P-161) Preference for parenteral nutrition after education in patients with nonfunctional bowel due to advanced cancer: a pilot study
So Yeon Oh (Pusan National University Yangsan Hospital)
- P-162) Prognostic Value of Asymptomatic Biliary Candidiasis via percutaneous transhepatic biliary drainage (PTBD) Among Patients with Malignant Biliary Obstruction.
In-Ho Kim (College of Medicine, The Catholic University of Korea)
- P-163) The classification and subsequent treatment of hospice patients could reduce the medical cost with similar survival
Guk Jin Lee (College of Medicine, The Catholic University of Korea)

The 41st Annual Meeting of Korean Cancer Association with International Cancer Conference

Date : June 18(Thu) ~ 19(Fri), 2015
Venue : Lotte Hotel Seoul, Seoul, Korea

Scientific Program

June 19 (Fri)

Poster Presentation

09:00~17:00, Emerald Room

P-164) Cervical And Breast Cancer Screening Program In Indonesia, 2007-2014

Fatum Basalama (Ministry of Health, Indonesia)
